Career Corps Lesson Plan Template

Course Title: Employment/Occupation/Carer Course Number: N/A Total Duration: One Month Date/s: N/A

Overview/Annotation: Career Opportunities:

Essential Question: How can role play, and task boxes effectively promote real life experiences?

Background/Preparation: I spent a few days shadowing the Alabama Department of Rehabilitation Services and how they can support students with disabilities in the classroom and outside of the classroom. I was able to get a lot of insight on opportunities that are available to my students once they reach the age of 16. I am taking what I learned and putting it into one of many lessons that I will teach my students in the future. This lesson will be on vocational training and activities to get them prepared for future endeavours.

TSV increase histher skills in effective communication and self-monitoring of ineffective communication via role-play, peer feedback, and real-life experiences. (TS.P59.2.B) Carring Targets	Content Standards				Correlation to Alabama COS
